

# María José Márquez Pérez

I'm a Frontend Developer passionate for technology, design and development looking to expand my current skillset while contributing in innovative and high-impact projects.

After many years working in different industries, I found my passion in technology and decided to take the leap forward. I love change and working with other inspiring professionals.

## SKILLS

### Frontend Dev

HTML, CSS, JS, React, Redux.

### Software Dev

Git, Node JS, Firebase.

### Web Design

Figma, Photoshop, Bootstrap.

### Soft Skills

Scrum project management, sales management, team building, team leading.

## SOME PROJECTS

In Progress

## LANGUAGES

Spanish (Native)

English (Intermediate)

## HOBBIES

My hobbies are decorating, creating and recycling furniture, camping, meditation, listening to music and watching movies.

## EDUCATION

### Frontend Developer 2009 – Present Bootcamp Laboratoria

In Laboratoria besides knowing the programming languages I have learned about teamwork and its importance developing technical skills and soft skills. I chose the frontend development area, where I also obtained knowledge of UX / UI, using agile methodologies and self-learning.
